

New Upgrade for D500 systems... **SAVES YOU TIME AND MONEY!**

This new upgrade will give the painter consistent flash and dry times with waterborne finishes, and it's extremely easy to maintain! RTi is please to introduce our latest upgrade package to retrofit competitor's systems with our dryer technology. At a fraction of the cost of a new package, the shop can install an RTi dryer with all its technical improvements, using customers existing filters and regulators.

- Easy spin on/spin off element
- No tools required
- 1 micron final filter
- True moisture indicator
- Additional manual drain
- Non-corrosive housing

The package includes the **DE401-M04** dryer (shown above) and replacement elements for the 1st stage (**RTi-HAF-6**) and 2nd stage pre-filter (**RTi-HAF-28**)
