

High Flow Conductive Hose

A075_0620

PH100C

Uniquely different PVC air hose that prevents static build-up without the need of a static wire. Crimped ends with stress relief and high flow fittings. Brass end fittings are 1/4" male NPT. [Also available in PH35C, 35' or PH50C, 50']

Features

- Uniform conductive flexible liner assures contact with fittings for the life of the hose
- No wires to break when hose is flexed
- Silicone-free
- Continuous flexible conductive liner assures contact with fittings, without special preparation or clamping techniques
- Ships with high flow coupler/plugs

Higher transfer efficiency especially with plastic components like bumpers

PH35C Construction:

Tube - Co-extruded electrically conductive PVC

Reinforcement - Spiral polyester yarn

Cover - Weather resistant PVC

Part #	Size	Max Pressure	Max Temp	Length	Approx. Weight
PH100C	3/8" ID	300 PSI	150 °F	100 ft	11 lb

Note: Hose should not be pressurized during the bake cycle
