

## Spray gun pressure analysis tool

### Features & Benefits

- Designed for applications where pressure is regulated on the wall
- Perfect for scenarios where you don't want/have to spray with a gun regulator
- Designed to verify inlet pressure to the gun for proper atomization per the manufacturer's specifications
- Supplied with a 0-60 PSI pressure gauge in 1 lb. increments and high flow coupler
- Pressure gauge part number: PG-060-1.5-CB

### Specifications

- Comes with:
  - High Flow Coupler
  - ¼" NPS Swivel Connector
  - Chrome Plated Gauge Bezel
- Size Specifications:
  - Height: 1<sup>5</sup>/<sub>8</sub>"
  - Width: 4<sup>1</sup>/<sub>2</sub>"
  - Depth: 2<sup>1</sup>/<sub>8</sub>"
  - Weight: 8 ounces
